

HOWTO: Install the DotImage Activation Wizard Visual Studio Extension

NOTE: These instructions are for Visual Studio 2015, however they should work for any version of Visual Studio which supports NuGet and extensions (VS2010 and newer)

To install the Atalasoftware activation wizard:

- In Visual Studio 2015, go to Tools -> extensions and updates
- Then go to the "Online" section and search for "Atala" you should see the Atalasoftware DotImage Activation Wizard
- Click Download and when prompted, Install
- Visual Studio will prompt to restart (Visual Studio)

Now, "Activate Atalasoftware DotImage" will appear in the top of the Tools menu in VS

To request an evaluation,

- Go to Tools -> "Activate Atalasoftware DotImage"
 - Click Next
 - Select "Request 30-day evaluation"
 - Click Next
 - Provide the email address and the password you used to sign up for your Atalasoftware account
- click next
- It will connect to our web service.. Please pay attention for any error messages.. if you see something other than "Your evaluation has completed. You have requested evaluation licenses for the following products", you will want to make sure you include the message in a support ticket so we can assist you.
 - Click Finish

You can now begin using DotImage (including building/running sample applications)

To activate paid licenses, instead of "request 30-day Evaluation",

Go to Tools -> "Activate Atalasoftware DotImage"Click NextSelect "Activate an SDK serial number for use on this machine, or a server license."Click NextPaste or type in your serial number(s) one per line (unless you're activating server licenses, in which case, past in only one serial number)Ensure the "License Version" at the bottom matches the version you're activating for (it will default to 10.7)Click NextProvide the email address and the password

HOWTO: Install the DotImage Activation Wizard Visual Studio Extension

you used to sign up for your Atalasoftware account

click nextIt will connect to our web service.. Please pay attention for any error messages.. if you see any mention of being unable to activate or issuing temporary licenses, you will want to make sure you include the message in a support ticket so we can assist you.Click Finish
