FAQ: Where Can I Find Legacy Downloads (Older DotImage Versions)

Background

We encourage all customers who are under active maintenance to use the most recent possible version of DotImage. This is especially true for users who are building/deploying web-based applications as browsers and web servers are constantly being updated by vendors, and we often need to provide changes/updates to ensure compatibility. (For instance, IE 11 made some major changes that mean that users on anything older than 10.4.1 may encounter issues with IE 11)

However, there are times when it's important, due to legacy application support, or due to needing to keep a large number of developers compatible with each other (using the same version) when it's necessary to install an older version of DotImage.

The first place to go is to our "All Downloads" page where you can find all official releases (releases, service packs and fix packs) from 10.6.0.3 and forward

FINAL release

FAQ: Where Can I Find Legacy Downloads (Older DotImage Versions)

v10.0.7.58124 - 2012 Jul 12

Unfortunately we do not have any other installers for versions going back this far. For issues, please consider upgrading and/or please create a support case

Seventh Minor Release

v10.0.7.55921

Sixth Minor Release

v10.0.6.54517

Fifth Minor Release

v10.0.5.52595

Fourth Minor Release

v10.0.4.51162

Third Minor Release

v10.0.3.51604

Second Minor Release

v10.0.2.50945

First Minor Release

v10.0.1.50820

Initial Release

v10.0.0.49402

LICENSING WARNING

It is no longer possible to activate licenses for any version < 10.0.

9.0 and older have a licensing mechanism no longer compatible with our license activation

tool. If you attempt to activate for 9.0 or later you'll receive an "Invalid Assembly in License File" exception when you attempt to run.

DotImage 9.0

- First appearance of .NET 4.0
- DotTwain integrated into DotImage Document Imaging
- First version to have PdfDocument class
- Last version to support Inlite Barcode reading natively (BCRS/BCRD/BCRP serials)

FINAL release

v9.0.4.52876 - 2012 ?? (Unsure of exact date)

Unfortunately we do not have any other installers for versions going back this far. For issues, please consider upgrading and/or please create a support case

Fourth Minor Release

v9.0.4.47218

Third Minor Release

v9.0.3.? / not available

Second Minor Release

v9.0.2.43320

Sep 9, 2010

First Minor Release

v9.0.1.38592

Jun 7, 2010

Initial Release

v9.0.0.38146

Apr 16, 2010

Even Older

NOTE: The legacy versions for 8.0 and earlier are not readily available, so only one version will be listed for each.

DotImage 8.0

FINAL release

v8.0.3.38502

May 2010 (Approx)

Unfortunately we do not have any other installers for versions going back this far. For issues, please consider upgrading and/or please create a support case

DotImage 7.0

FINAL release

v7.0.3.43343 (not available)

Latest available: v7.0.2.32419

Sept 2010 (Approx)

Unfortunately we do not have any other installers for versions going back this far. For issues, please consider upgrading and/or please create a support case

DotImage 6.0

- Last version supporting .NET 1.1
- First version with x64 support (.NET 2.0 x64 dlls)
- First version with WPF components (use our .NET 2.0 DLLs, but target .NET framework 3.0 or 3.5)

FINAL release

FAQ: Where Can I Find Legacy Downloads (Older DotImage Versions)

v6.0.3161.20673

Oct 2007 (Approx)

Unfortunately we do not have any other installers for versions going back this far. For issues, please consider upgrading and/or please create a support case
