INFO: DotViewer Release Notes (RETIRED)

This is the "master article" for all available Release Notes for DotViewer Web Viewing application. For the DotImage SDK, please see DotImage Release Notes

DotViewer 2026.2

NO LONGER OFFERED FOR SALE

DotViewer is considered "end of sale". It will continue to be supported within the Atalasoft DotImage 2026.2 release line, but it has been discontinued as a separate product line / installer / Turn-Key application for sale.

AVAILABLE AS SOURCE (Requires licenses for DotImage Document Imaging, WingScan, PdfReader and DotPdf to fully run)

You can still find the full sources for it when installing the 2026.2 SDK - it is installed to

C:\Program Files (x86)\Atalasoft\DotImage 2026.2\Sources\DotViewer.zip

However, there will be no new features or updates except to keep the sources up to date with the build it comes bundled with.

The sources can be deployed and run with proper licensing, but should mostly be seen as a sample application/example of use of DotImage products.If you have any questions, please feel free to create a support case.

DotViewer 11.5

Initial Release 11.5.0.0 - June 15, 2024

November 29, 2021

Problems Resolved in this Fix Pack

- Several stability and security problems have been fixed.

v13.0.0.668 - Initial Release

October ?? 2021

About this Release

DotViewer is an installable server-side component for document viewing and web-based scanning that alleviates the need for the customer to build their own handler using .NET coding. This is a new part and is licensed separately. Contact Atalasoft sales for more information.

The release notes give you late-breaking information. Please read this document carefully, as it contains information that is not included in other Atalasoft DotViewer documentation.

Version Information

The build number for Atalasoft DotViewer 11.3.0 is 11.3.0.0.0.668.

System Requirements

The primary source of information about Atalasoft DotViewer requirements and dependencies on other products is the Technical Specifications document posted on

Atalasoft website. We recommend that you review it carefully, especially if you plan to use Atalasoft DotViewer 11.3.0 with other Atalasoft products.

Resolved Issue

This section contains information about issues that have been resolved in Atalasoft DotViewer since the prior release of this product.

DotViewer evaluation Licensing

1362244: DotViewer evaluation licensing was not requested by the Activation Wizard.
